**"A COMMITMENT TO SAFETY AS  
STRONG AS THE PROJECTS WE BUILD!"**

**GENERAL CONSTRUCTION & METAL FABRICATION**

FOUR LOCATIONS SERVING CUSTOMERS IN MULTIPLE STATES  
Decatur, Illinois ♦ Lafayette, Indiana ♦ Reserve, Louisiana ♦ Marion, Arkansas

CONTRACT MAINTENANCE ♦ PROJECT MANAGEMENT ♦ INDUSTRIAL, PRECISION & STRUCTURAL FABRICATION

## GENERAL CONSTRUCTION & MAINTENANCE

The Kelly Group provides general contracting, project management and design/build services well-suited for a variety of industries — agricultural, chemical, food processing, heavy civil, manufacturing and others. We can also provide dedicated contract maintenance personnel inside our customers' facilities, establishing a long-term relationship to better understand site-specific needs.

### THE KELLY GROUP'S CONSTRUCTION SERVICES

#### CONCRETE

- ◆ Structural concrete
- ◆ Foundations and machine bases
- ◆ Flat work, footings, floors and walls
- ◆ Concrete blocks and tank bases
- ◆ Pre-construction and demolition

#### CRANE OPERATORS

- ◆ NCCCO-certified operators, instructors and examiners
- ◆ Certified tower crane operators
- ◆ 4- to 2,300-ton lift capacity

#### INSULATION

- ◆ Working with fiberglass, calcium silicate, mineral wool, perlite, polystyrene and rubber insulation
- ◆ Hot-water, oxygen and steam piping
- ◆ Tanks, vats, pressure vessels and boilers

**The Kelly Group's roots are in contract maintenance, with more than half of our employees performing daily work at customer facilities.**

#### IRONWORK

- ◆ Iron and steel girders
- ◆ General rigging
- ◆ Industrial duct work
- ◆ Metal building construction
- ◆ Tanks
- ◆ Structural steel erection

#### MILLWRIGHTS

- ◆ Equipment installation and repairs
- ◆ Construction supervision
- ◆ Planned outages and dismantling
- ◆ Preventive maintenance

#### PIPEFITTING

- ◆ High- and low-pressure systems
- ◆ Process, steam, chemical and food industry piping
- ◆ 3D modeling and drawings
- ◆ Pressure piping and hot tapping

#### SCAFFOLDING

- ◆ System (STI), frame and shoring scaffold
- ◆ Trash chutes
- ◆ Stairway access
- ◆ Access towers for plant outages
- ◆ Masonry towers
- ◆ Sidewalk covers

#### OTHER CAPABILITIES

- ◆ General carpentry and repair
- ◆ Drywall installation and taping
- ◆ Siding

## INDUSTRIAL & PRECISION METAL FABRICATION

Our fabrication facilities are capable of crafting a wide range of industrial and precision projects ideally suited for many industries. After more than three decades of work, we've earned a reputation for providing our customers quality fabrications and excellent customer service at competitive prices. An experienced fabrication and quality control staff provides support throughout all our projects.

### QUALITY & STANDARDS

Kelly constantly monitors and improves its processes to ensure the highest-quality work. We use **ASME- and AWS-certified welders**, with quality control managers overseeing their work. In Indiana, our precision fabrication facility is **ISO 9001:2015 certified**.

- ✔ R Stamp from National Board
- ✔ S Stamp, U Stamp & PP Stamp from ASME

### STRUCTURAL STEEL

Our Illinois facility has top-of-the-line equipment to fabricate industry-leading steel fabrications:

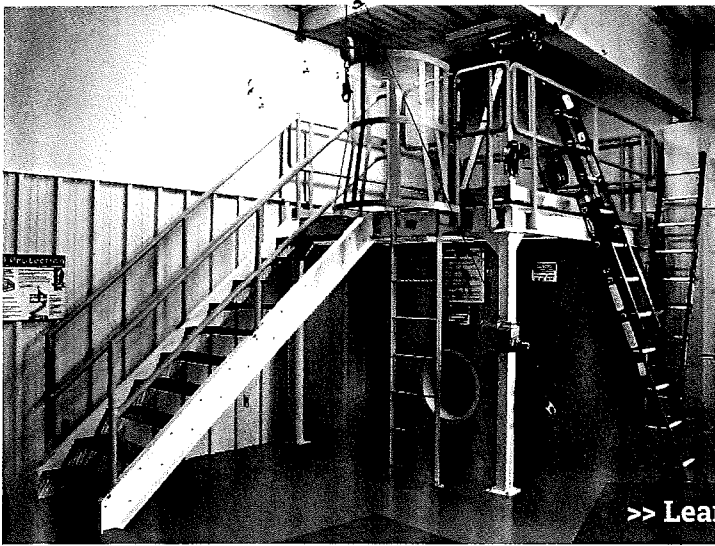

- ✔ Voortman CNC drill and saw (50"x24" max beam)
- ✔ CNC burn table (9'x21', 3" thick)
- ✔ Pangborn shotblasting cabinet

### THE KELLY GROUP'S FABRICATION CAPABILITIES

- ◆ Dust collectors
- ◆ Cyclones
- ◆ Duct work
- ◆ Piping
- ◆ Pressure vessels
- ◆ Tanks
- ◆ Platforms
- ◆ Stairways
- ◆ Ladders
- ◆ Hoppers
- ◆ Rotary dryers
- ◆ Enclosures
- ◆ Panels
- ◆ Carts
- ◆ Racks and bins
- ◆ Weldments
- ◆ Frames
- ◆ Flanges
- ◆ Machining
- ◆ CNC milling and turning
- ◆ Powder coating
- ◆ Drafting and modeling
- ◆ 3D scanning
- ◆ Robotic welding

## START TRAINING

Much of The Kelly Group's required safety training is completed by **START (Safety, Technical and Reliability Training)**, which provides training both on site or at its Decatur, Illinois, location. START's facility includes hands-on training workshops and multiple classrooms. And with its mobile training unit, START offers courses such as confined space, fall protection, lockout/tagout and many others.

>> Learn more about START at [www.startsafetytraining.com](http://www.startsafetytraining.com)

## SAFETY

The Kelly Group maintains an extensive staff of more than 20 safety professionals, including regional safety managers and OSHA trainers who ensure our projects are completed safely. Our safety department also maintains an analytics database to track measurables such as job audits and serious incident precursors.

- ✔ Accomplishments recognized by ABC, GEAPS, NCCCO and the National Safety Council
- ✔ Proactive safety initiatives including near miss/incident reporting and investigation
- ✔ OSHA 10- and 30-hour training ✔ Excellent OSHA compliance record with zero citations
- ✔ Two full days of orientation for each new employee and annual refresher training

# THE KELLY GROUP

## OUR HISTORY

Kelly General Construction Company of Decatur was founded in 1983 as a general contractor and sheet metal fabricator serving industry in Decatur, Illinois. In 1994, Kelly Construction of Indiana opened in Lafayette. Now rebranded as The Kelly Group, the company employs about 750 people and has grown to have five metal fabrication facilities — including locations in Reserve, Louisiana, and Marion, Arkansas.
